Join the Toilet Board Coalition for a one-of-a-kind experience which will showcase integrated sanitation systems of the future - that are smart, sustainable and accessible to all - cost recovering and revenue generating!

The Sanitation Economy is changing the way we value our toilets and sanitation systems - creating vast new marketplaces of resources, products and services, data and insights that have been virtually untapped. The Sanitation Economy presents the potential to transform the economics of sanitation - from unaffordable public costs to untapped business opportunities - to achieve SDG 6.2 and self-reliant resilient systems. We have been building significant evidence that now shows that this transformation is feasible and represents an attractive set of business opportunities. In 2019, we are showcasing the evidence and impact of working Sanitation Economy systems, and an expanding marketplace of new business models for businesses and governments to invest and scale into the future.

**audience**
The Summit will bring together business, investment and sanitation leaders from around the world working at the forefront of the Sanitation Economy to showcase solutions and share best practice. The Summit is also a platform for business, government and societal leaders to learn about Sanitation Economy solutions for their sector, citizens, and development agendas.

**sessions**
MARKETPLACE Expo of Sanitation Economy business solutions, best practice & networking spaces
SMART SANITATION CITY SITE VISIT to Pune Smart City Control Center
WORKSHOPS will focus on global best practice to scaling the Sanitation Economy
SANITATION ECONOMY LEADERS Keynotes from local & international Sanitation Economy leaders
PUNE LIVE Opening & Closing Ceremony Evenings of awards, entertainment and networking

**about the toilet board coalition**
Founded in 2014, the Toilet Board Coalition (TBC) is a unique business-led partnership with the ambition to address the global sanitation crisis by accelerating the Sanitation Economy. The TBC is enabling private sector engagement; connecting large and small companies; and ensuring close collaboration between private, public and non-profit sectors with the common goal to achieve Sustainable Development Goal 6 (SDG6), universal access to sanitation. The TBC runs the Toilet Accelerator, the world's first Accelerator Programme dedicated to sanitation entrepreneurs in low-income markets. The members of the Toilet Board Coalition believe that accelerating the Sanitation Economy will deliver significant impact to business and society.
